

PVC edged door range

If you're looking for a contemporary style door but you're working to a budget, then this is the range of doors for you!

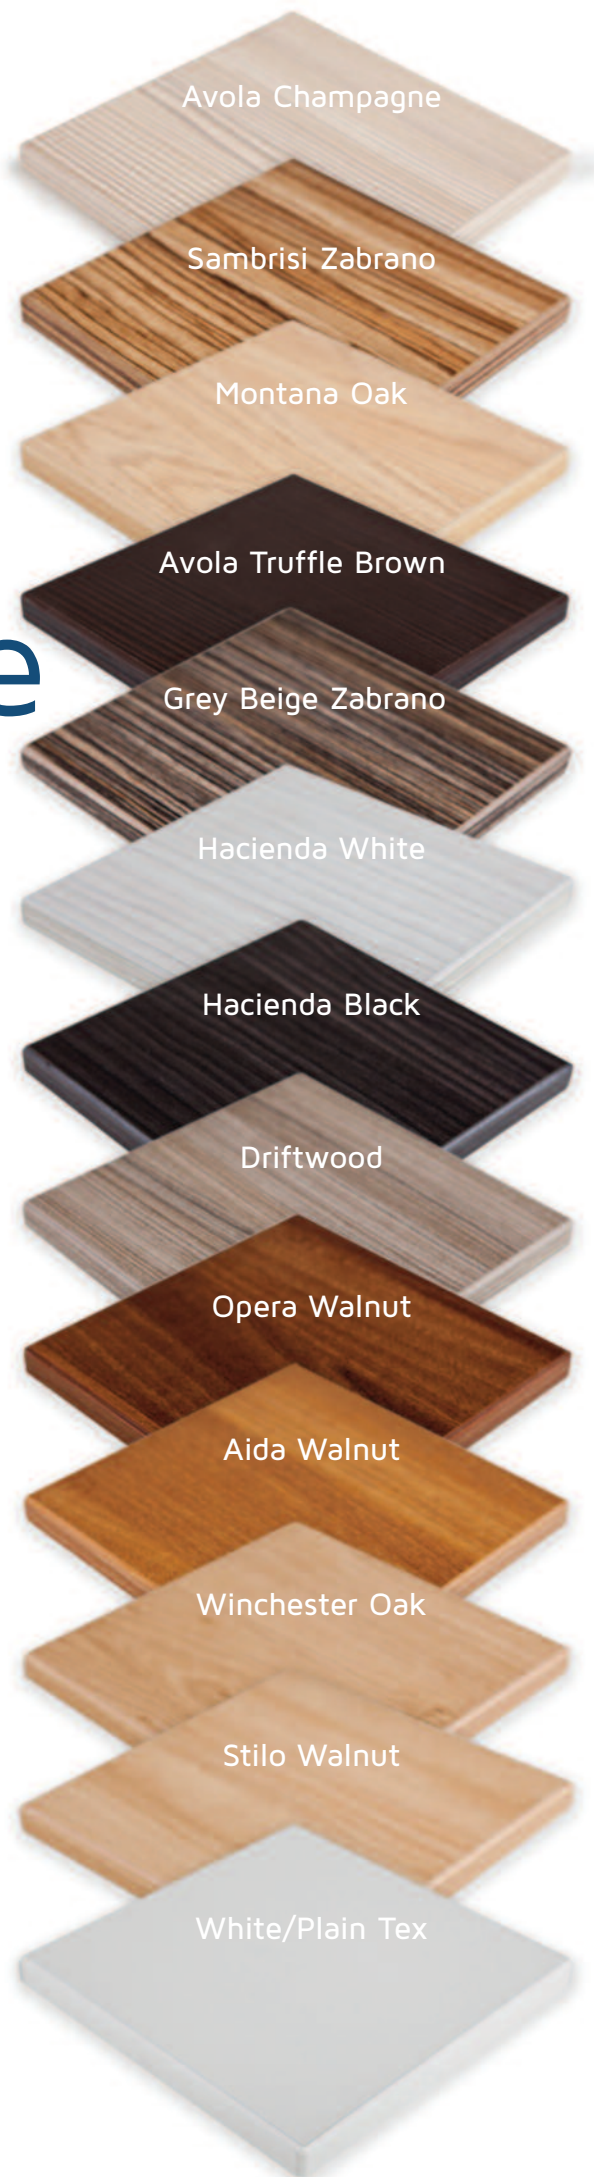

All doors are a flat slab style made from MFC (melamine-faced chipboard) with a 2mm PVC colour co-ordinated edging.

This is a hardwearing product which is ideal for any application such as kitchens, bedrooms, bathrooms and studies. There are 13 colours available as standard, but other colours are available on request.

Door sizes can be supplied in standard or made-to-measure sizes up to 2600mm high x 996mm wide. Angled doors are also available if required for sloping ceiling installations. Doors can also be drilled for hinges to your specification.

The new textured doors are proving a popular choice – colours include Zebrano, Champagne, Truffle Brown & White Avola, Driftwood and Hacienda Black & White.

Samples are available on request.
