

NEW MODERN

Technology. Transparency. Practicality.
NEW MODERN impresses with its clear cut,
futuristic style and cool touch. Purist looking
furniture fronts in masterful perfection.

Touch-in

Creates design flexibility in shape and colour

The unique handle experience.

Ingeniously yet with amazing simplicity, the Touch-in handle function is concealed in front panels that almost seem to be handleless. The modular or ready to install handles give you a wide choice of design options – matching the front panel or contrasting with it. Touch-in handles can be lacquered by the fabricator in front panel colour or finished in any chosen decor.

Touch-in, ready to install

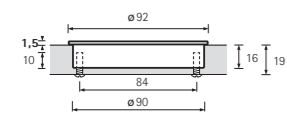

1. Bright chrome plated

2. Brushed stainless-steel look
