

CONISTON

## CONISTON

A simple shaker style for fans of a natural timber beauty yet packed with superb design features that give character and practical appeal.

One of the collection's Natural Oak styles, we can expertly create concave and convex curves with the Coniston solid timber doors. So don't be square, challenge timber perceptions and show off an unconventionally fluid design.

Coniston lets you channel a farmhouse style kitchen look safe in the knowledge that the space and flow more than meets the demands of modern family living.

Layer up the Conistons's clean design by picking and mixing from the extensive choice of premium quality handles and knobs, to add interest and impact to this classic kitchen with a twist.

Of course if you are looking to blend this natural timber look – or opt for a solid colour preference – Coniston is also available in the Painted palette and Bespoke Painted.

### RANGE HIGHLIGHTS

WINDERMERE

# WINDERMERE

Rest assured you are investing in great quality with the simple pared down look of Windermere which embodies commitment to quality construction and materials.

The stylish and practical off-the-shelf colours offer a mix of neutrals along with the more intense tones of Seal Grey, that perfectly match the way today's kitchen spaces are used, whilst enhancing the simplicity of this range's iconic shaker styling.

But if you want to create something more indulgent then just dive into the wider paint palette or even go for a bespoke colour burst.

We think a strong, stainless steel handle further reinforces this classic kitchen, but why not grab hold of a more delicate curved option or go for a cast iron effect finish to adorn your Windermere doors.
