

We've been proudly manufacturing here in the UK for more than 20 years, and
 - while everyone knows about our industry - leading kitchen and bedroom cabinets
 - it seems that not everybody knows about many of the other
 premium bespoke services we offer!

**So, we've included some fantastic Basically Trade facts
 below that could benefit your business:**

Quality is guaranteed

We offer a firm 10-year guarantee on all cabinets, plus a lifetime guarantee on Blum products.

Our cabinets will always be made with matching 18mm board and supplied fully assembled. This includes all drawer boxes and units too, no flat pack here.

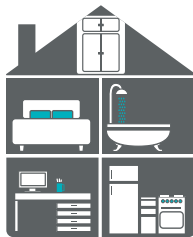

Halsted & Ward Premium Range

We're now proud to be offering our own premium range of in-house manufactured one-piece 22mm Shaker MDF doors along with matching panelling. Manufacturing in 'one piece' means there are no joints to move / expand / crack over time, so their durability is excellent. Many customers are already taking advantage of the fact that we manufacture J-pull and flat slab doors from the same MDF too. Both ranges supplied either raw or painted. All totally bespoke to your sizes.

For any Room in the house!

Because we offer bespoke cabinets, we can provide unique items for any room.

We may be best known for our kitchen and bedroom products but many clients' projects include bathrooms, media rooms, utility rooms, boot rooms and lounges. Our Birch Ply cabinets have even been utilised in the garden, taking al fresco dining to the next level.

Bespoke bathrooms

We're proud to create many different styles of bathroom cabinets (*with panels to match the doors*) bespoke for our clients.

This is something we've been doing for years but haven't advertised widely, and they're becoming ever more popular. We've now taken on a specialist from the bathroom industry to help us grow this area of the business even further.

Saving time on site

With many new services, here are just a few. With all bedroom jobs, we now cut hanging rails to size free of charge. This saves time on site and means you get the perfect length with a straight cut (*no more relying on wonky old hacksaws*). Also, if a client orders any form of Wirework or pull out from us FOR KITCHENS then we'll install this totally FOC.

This includes many brands such as Salice, Vauth Sagel, Hafele, HAWA, Hettich and many, many more.

Delivery throughout the UK and export too

There are options to suit every circumstance; from palletised delivery, and delivery using our own vans, to straight-to-site delivery if required.

We try to make things as straightforward as possible for customers.

Upon dispatch, we always email images of the packaged items so you know what to expect and how much space may be required, and you'll receive a 'heads up' call an hour before arrival too.

Commercial work continues

As well as domestic projects, the commercial side of our business continues to grow as we supply to meet the plans of architects and developers. We're particularly well versed in manufacturing for the hospitality sector, including bars, hotels and restaurants.

For the Love of Handleless kitchens

We've been manufacturing this style of kitchen for the past few years but not really shouted about it. With many options on offer. All cabinets are fully designed and routed to the frontal specification. Just fit and clip and go. With a wide range of Blum drawer systems installed from Servo, Antaro, Legrabox, Tipon, Timber dovetails and lots more.

Latest materials being machined

Along with the old favourites, we are also machining some exciting new materials that many other cabinet companies simply don't offer:

- **18mm Birch Ply**
(veneered and lacquered if required)
- **19mm Veneered MDF**
(with veneered edges and lacquered/painted if required)
- **18mm Paintable Unilin MDF**
(needs very little priming, and we can also supply fully painted)
- **22mm Finsa Fibrilac MDF**
(perfect for premium painted products)
- **Laminated boards**
- **18mm Emporio Skin**

We can offer regular clients a design and brand service

You can create your own unique range of cabinets with your favoured dimensions, routes, finishes, drawer systems, components and even name plates if required. This gives you a 'mark of distinction', and also brings the benefits of simple ordering and quick installation times.

We can manufacture to suit Lay On, In Frame, Handle-less and many other styles.

You provide the design and spec – we'll provide the product!

Designed with the Fitter in Mind!
